Source

- ../docs/ai_assistants/GOVERNANCE.md
- ../docs/ai_assistants/STATUS.md
- ../docs/ai_assistants/reference/SCIENTIFIC_DOMAINS.md
- ../source/tests/unit/test_wcm_plugins.cpp
- ../source/tests/unit/test_simulator_runtime.cpp

Purpose

- Show how code, tests, didactic examples,
- and scientific claims relate to each
- other.

Required content

- confirmed code
- executed tests
- didactic examples
- experimental/research boundary

Accessibility

- A vertical or stepped ladder that
- distinguishes code evidence from
- scientific claim level.

Validation

- The diagram must not collapse experimental examples into scientific validation.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
