

Report summary from the baseline execution.

fig:first-model-report | figure

Generated from FIGURE-SPEC comments

Source

- source/kernel/simulator/model/ModelSimulation.cpp
- source/applications/gui/genesys/mainwindow.ui
- models/AirportSecurityExample.gen

Purpose

- Show the output report or summary
- statistics generated by the baseline run.

Required content

- reported replication summary
- any observed statistics for the branch outcomes
- time-based summary values if visible

Accessibility

- A report snapshot that lets the reader
- relate the run to the observed statistics.

Validation

- The report must reflect the same example and the same simulation settings as the trace.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
