Purpose

- Show the visible GUI widgets and the main
- service/controller blocks that sit beside
- them.

Required content

- the generated MainWindow UI widgets and panes
- the graphics view and graphics scene
- the trace console, property editor, plugin tree, and model trees
- the major controller blocks that attach to those widgets

Accessibility

- A top-level GUI map that helps the reader
- identify which widget owns each
- responsibility.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
