Generated from FIGURE-SPEC comments

Source

- ../source/applications/gui/genesys/main.cpp
- ../source/applications/gui/genesys/controllers/ModelLifecycleController.cpp
- ../source/applications/gui/genesys/mainwindow.cpp
- ../source/applications/shell/GenesysShell.cpp

Purpose

- Show the most common user-visible error
- messages for startup, model opening, model checking, and plugin auto-load problems.

Required content

- a build/startup failure example
- the generic model-open warning
- the generic model-check failure dialog
- the shell plugin auto-load warning

Accessibility

- A montage of UI and terminal messages that
- match current code paths.

Validation

- The text shown must match messages actually emitted by the current code paths.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
