tests-kernel-...

tests-smoke preset

build directories

matching CTest...

Source

- ../CMakePresets.json
- ../source/tests/CMakeLists.txt
- ../README.md

Purpose

- Present the current configure, build, and
- test presets with their build-tree
- separation.

Required content

- tests-unit preset
- tests-kernel-unit preset
- tests-smoke preset
- build directories
- matching CTest entry points

Accessibility

- A matrix or table that lets the reader
- choose the right preset without guessing.

Validation

- The names must match the current repository inventory.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
