Process / flow

Source

- ../source/kernel/simulator/Simulator.cpp
- ../source/kernel/simulator/model/Model.cpp
- ../source/kernel/simulator/TraceManager.cpp
- ../source/kernel/simulator/model/ModelManager.cpp

Purpose

- Show the destructor order and the trace
- shutdown guard.

Required content

- Simulator destructor order
- Model destructor order
- TraceManager::beginShutdown guard
- model-owned object cleanup before manager cleanup

Accessibility

- A shutdown sequence diagram that shows why
- late callbacks are neutralized before
- storage is freed.

Validation

- The sequence must match the delete order in the destructors and the callback shutdown guard in Tr

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
