Generated from FIGURE-SPEC comments

Process / flow

Source

- source/kernel/simulator/model/Model.cpp
- source/kernel/simulator/persistence/PersistenceDefaultImpl2.cpp
- source/kernel/simulator/persistence/GenSerializer.cpp

Required content

- Model::save entry point
- serializer selection by extension
- metadata, data-definition, and component collection
- final dump to the output stream

Accessibility

- A pipeline diagram that makes the
- serializer choice and the save ordering
- easy to follow.

Validation

- The pipeline must reflect the actual extension dispatch and section ordering in the code.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
