

# Structured replication or full-simulation report in the reports pane.

fig:results-report | figure

Generated from FIGURE-SPEC comments

**Source**

- source/kernel/simulator/SimulationReporterDefaultImpl1.cpp
- source/kernel/simulator/SimulationReporterDefaultImpl1.h
- source/applications/gui/genesys/controllers/TraceConsoleController.cpp
- source/applications/gui/genesys/mainwindow.ui
- source/applications/gui/genesys/mainwindow\_simulator.cpp

**Purpose**

- Show a real replication or full-simulation
- report rendered in the reports pane.

**Required content**

- the reports text pane
- begin/end report markers
- grouped statistics or counters

**Accessibility**

- A report screenshot that makes the
- structured summary output readable.

**Validation**

- The headings and row structure must match the reporter implementation.

The source block remains the authoritative specification.  
The rendered asset is a compact visual summary.
