

Current validation pyramid and claim strength.

fig:test-pyramid | figure

Generated from FIGURE-SPEC comments

Source

- ../README.md
- ../docs/ai_assistants/README.md
- ../docs/ai_assistants/GOVERNANCE.md
- ../docs/ai_assistants/STATUS.md
- ../source/tests/CMakeLists.txt

Purpose

- Show the current validation hierarchy from
- configure/build to scientific review.

Required content

- configure/build base
- unit/regression layer
- smoke layer
- focused sanitizer layer
- scientific validation cap

Accessibility

- A pyramid or stacked diagram that makes
- the validation strength of each layer
- explicit.

Validation

- The layer names and their ordering must match the current repository policy and test surface.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
