

Version confirmation through the GenESyS About dialog.

fig:user-version-confirmation | dialog screenshot placeholder

Generated from FIGURE-SPEC comments

Source

- source/applications/gui/genesys/mainwindow.ui
- source/applications/gui/genesys/controllers/DialogUtilityController.cpp

Purpose

- Show the About dialog used to confirm the
- runtime version.

Required content

- About Genesys dialog
- version field or equivalent runtime identity
- application name

Accessibility

- About dialog used for version and identity
- confirmation.

Validation

- The dialog content must match the current GUI code.

The source block remains the authoritative specification.
The rendered asset is a compact visual summary.
